ELECTRICAL ENGINEERING

Paper Presentation

Topics

Electric Vehicles & Future Mobility
Drones & Autonomous Systems: The Future of Engineering
Renewable Energy & Energy Storage: Powering the Future
Advanced Sensor & Smart Monitoring Systems
Physical AI: Bridging Artificial Intelligence and the Real World

Rules & Regulations

- Team size: Usually 1 to 4 authors per team, depending on the event guidelines.
- Presentation time: Strict 8 to 10 minutes per team.
- Q&A session: An extra 2 to 5 minutes for judges' questions.
- Delivery: Bring your presentation file on a pen-drive or CD, and carry your college or company ID card. Final decisions will be taken by judges.

COMPUTER SCI. ENGINEERING

Code Quest

Rules & Regulations

- Round 1 - Blind Coding (30 Minutes) Complete the given coding task within the time limit. Evaluation will be based on correctness and time taken.
- Round 2 - Problem Statement (45 Minutes) Develop a solution for the given problem using C/C++. Evaluation will consider logic, correctness and execution.
- Round 3 - Model Making (180 Minutes) Create and demonstrate a working model/prototype using L/C++. Evaluation will be based on functionality, creativity and logic.
- Note: Participants may use Chat GPT assistance for developing the model/prototype.
